# Function and design

Our cultivation collars are available in different sizes and are easy to build together - expand - or stack and build in height.

Only the imagination sets limits.

The collar is made of quality sheet metal with a finish in galvanized, powder-coated paint.  
It's just a matter of choosing.

This is how you create space for carrots and tomatoes, spices, shrubs and everything else you want to grow. Colorful or green.

Take a break. Enjoy the view and the scenes. Harmony, order and a great dose of finesse.

With its delicious connection between the corners, curved tops, bottom edge that can be pressed into the ground, our cultivation collar gives every garden a lift.

Our cultivation collars are suitable for all types of vegetation or cultivation. From the large garden to the small balcony in town.

## Measures:

1200x800x200

1200x400x200

1200x800x400

800x600x200

600x400x200

## Premium collars – galvanized or lacquered

On the left side you find our lawn and flowerbed edges which we also offers.

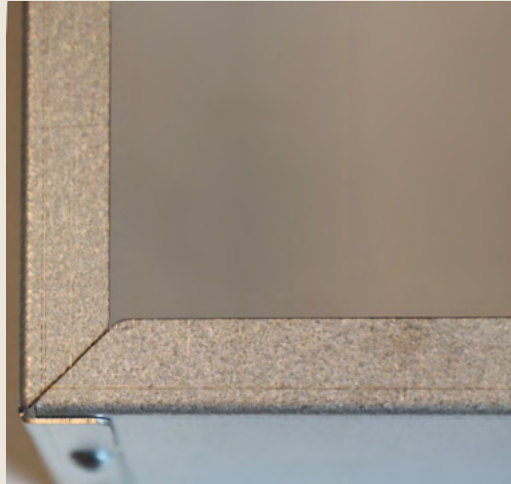

Stackable in height. Stable anchoring. Different sizes. Insert plates allow you to avoid to fill the whole collar with soil or peat, if you don't have the need to do that.

# Collars – galvanized or lacquered

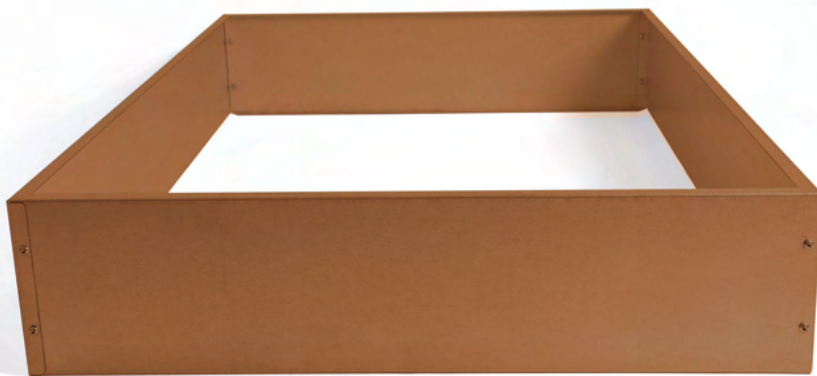

Instead of internal screw connections, these are screwed together

Design language is recognizable. The same stable anchoring. But slightly simpler design than premium.

Bent at the top and bottom, screws from the outside.

# Garden boxes

The Garden Box is made of pruce wood and has a bottom in 9 mm plywood.

Available in natural and in stained black color. The color is of course waterbased.

The Garden Box suits you well for grow carrots and tomatoes, spices, shrubs and everything else you want to grow, why not plant some flowers as a great welcoming.

This is the perfect thing - from the large garden to the small balcony in town.

So fill the Box up with soil and work your magic.

Measures:

1200x400x195

800x400x195

600x400x195

# Post

The railing that will blow your Scandinavian stylish mindset

T-posts

# Ambient light means welcome

Option under development for 2022

With Ambient light will you get the perfect feeling on a late summer evening with friends and family around sun table.

Ambient light is mounted in the amateur profile.

Amateur profile will be inserted into the post which will be preinstalled with electrical device for completion of complete installation for the electrician of your choice.

# Flowerbed edges

Our flowerbed edges dividers provide a stylish selection in and between your plantings in your garden.

For example, between hedges and lawns or plantations. They can also sit as support against stonework of various kinds.

Tiles and stone move easily. But with our mounted edges as support and framing, you do not have to move the stone or clear weeds in time and out of time.

Made of 2 mm galvanized steel. Easy to assemble. Similar bend mark at the top. Straight at the bottom and some sawn saw blades instead of a bend, so that they easily go into the ground.

Start by digging a reasonably deep soil forum where the edges will go down. Put together as many flowerbed edges you may need.

Sit down and refill. Nice and practical!

## Measure:

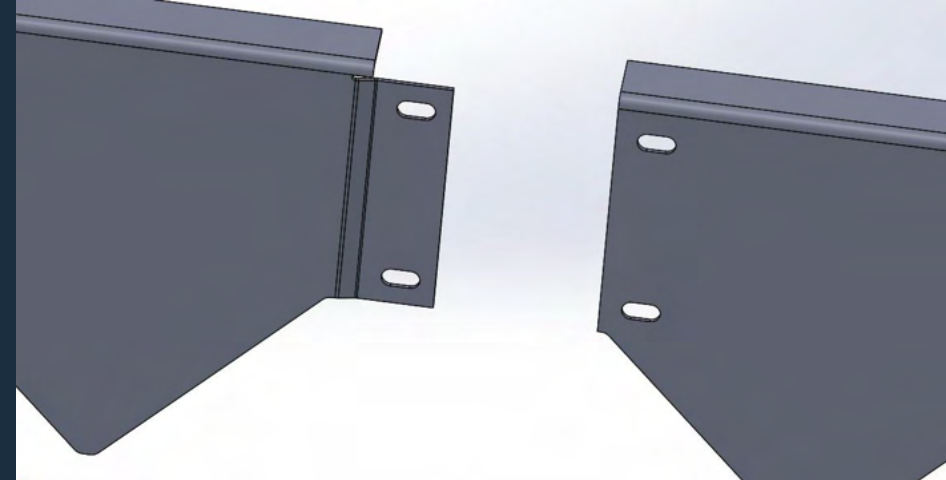

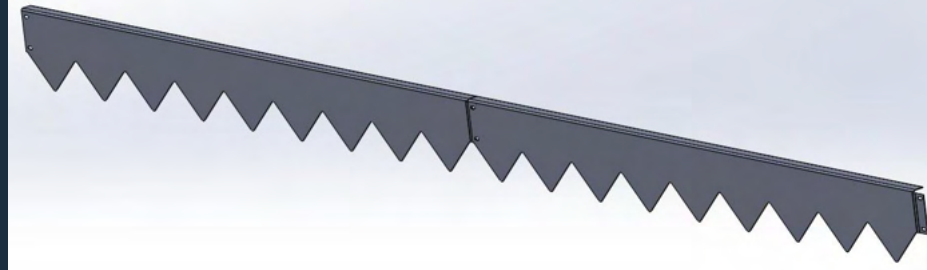

1200x100x2 mm

800x100x2 mm

600x100x2 mm

400x100x2 mm

300x100x2 mm

Straight simple bent edge.

Premium – several bends at the top.
